SKILLS

- MERN Stack Dev
- Mobile App Dev
- MEAN Stack Dev
- UI/UX
- AWS (Basics)
- Problem Solving
- Docker
- Git & GitHub

OBJECTIVE

Aspiring Full-Stack and AI Developer with a strong interest in web technologies, problem solving, and software development. Looking for an internship opportunity to gain practical experience and grow technical skills.

PROJECTS

• AI-POWERED FRAUD DETECTION & ANALYTICS PLATFORM

- Full-Stack + AI Project | 2026
- Developed a full-stack web application to detect fraudulent financial transactions using machine learning
- Built RESTful APIs using FastAPI for real-time predictions
- Integrated LLM-based explanations using OpenAI API and LangChain to generate human-readable insights
- Designed an interactive React dashboard with data visualization for analytics
- Implemented PostgreSQL database for storing transaction history and results
- Containerized the application using Docker for scalable deployment

• EASTLYAI MOBILE APP

- Full-stack AI-based recipe recommendation and cooking assistant app built with a cross-platform mobile app, REST API, and admin dashboard.
- Tech Stack: React Native (Expo), Node.js, Express.js, MongoDB, TypeScript, OpenAI API, Spoonacular API, JWT Auth
- Key Features: AI recipe recommendations, user authentication, recipe search via Spoonacular API, real-time chat assistant, and admin panel for user/content management.

ACHIEVEMENTS

- AWS CERTIFIED AI PRACTITIONER (CIF-C01)
- GENERATIVE AI ON AWS BEDROCK, RAG
